Experience

Data Entry Specialist

May 2022 - Current

D.V. KAP Home

- Keeping data up to date for a pillow manufacturing company
- Adjust and update the company website information using WordPress and Shopify
- Assisted with marketing team, worked with Adobe programs like photoshop, bridge, and indesign, showcasing their products for their customers.

Freelance

Jan 2022 - Apr 2022

Frontend Software Engineer

- Communicated specific business requirements and delivered high quality solutions.
- Engineered scalable, responsive, multi-platform and SEO friendly websites for clients using HTML5, CSS3, JavaScript ES6, and some React with the use of APIs

Projects

Client's E-Portfolio | <https://kristofermendoza.github.io/eportfolio4client.github.io/>

information is changed to maintain security and privacy of the client

- Designed and developed the site using semantic HTML5 and CSS3
- Provided support for SEO for higher indexing through Google's search engine crawler
- Included responsive and multi-platform (laptop, smartphones, desktop) support for appropriate viewing

Library E-COM Website | <https://kristofermendoza.github.io/library-ecom/>

- A bright and welcoming website for readers looking to purchase new eBooks, using an API with data about books.
- Utilized HTML, CSS, and JavaScript to provide responsiveness and simple use for users across all platforms (Desktop, Smartphone, Tablets).

Library E-COM Website (with React) | <https://library-react.vercel.app/>

- Updated the previous project and implemented React.js, facilitating the application as a developer
- Utilized React hooks and components and created functions, providing cleaner code and more understanding of the project development
